

Nano Ostrava 2008

1st Nanomaterials and Nanotechnology Meeting

September 1-4, 2008

Ostrava, Czech Republic

The **Nano Ostrava 2008** will be held in the metropolis of the Moravian-Silesian region, which is the educational and cultural centre of the North Moravian part of the Czech Republic.

This meeting will be organized by **Nanotechnology centre** and co-organized by:

- VŠB-Technical University
- Institute of Physics
- Faculty of Metallurgy and Material Engineering
- Laboratory of Bulk Materials

The VŠB-Technical University develops traditional branches of industry and it is also engaged in many modern fields of research and teaching.

The **Nano Ostrava 2008** will be organised in several sessions with plenary lectures focusing on important areas of Nanomaterials and Nanotechnologies.

Conference topics:

- Nanocatalysts and photocatalysts growth and fabrication
- Polymeric, ceramic and metallic nanocomposites
- Nanostructured materials for magnetooptics, electronics and fotonics
- Modeling of nanomaterials and structure analysis
- Particles and nanopowders
- Education and traininf in nanotechnology
- Biotechnology for nanomaterials fabrication, health safety and environmental risk of nanomaterials

Important dates:

April 14th, 2008 Abstract and reply form submission
April 30th, 2008 Abstract acceptance
July 31th, 2008 Registration and payment

We will try to prepare attractive scientific and social programme.
We look forward to meet you in Ostrava
September 1-4, 2008
